INTELLIGENT WAVE INC.

Most organizations rely on multiple layers to stop threats - but attacks still get through

Layers of Security

1st Line of Defense
Firewall

2nd Line of Defense
EDR / XDR

3rd Line of Defense
IAM

LAST LINE OF DEFENSE
CWAT®
Prevents Data Leaks,
Protects incase it happens

Data Leak Prevention

- Detects and blocks sensitive data exposure in real time
- Prevents leaks caused by human error or misuse

Built-In File Encryption

- Data is secured incase leaks happen
- Keeps data secure, even outside your network

YOUR SAFETY, OUR PRIORITY

Discover. Protect. Stay Ahead

CWAT delivers complete visibility across all user activities, helping you uncover unknown threats and strengthen your organization's security.

WHY CWAT?

ALL OPERATIONS MONITORED and LOGGED

Continuously monitors , logs and controls all user activities and operations to strengthen accountability and discourage inappropriate behavior.

COMPLETE VISIBILITY through POC

CWAT provides visualization and consultation to help clients identify unknown threats or risks and strengthen protection.

CONTINUOUS PROTECTION

Even after one-year, continuous monitoring operation helps uncover new threats and risks, enabling timely policy updates while minimizing overlooked security gaps.
