

AT THE CORE OF EVERY NETWORK

OverView

CoreEdge Networks, a leading company in South Korea, delivers **Creative** and **Efficient Network** solutions. Our mission is to reduce both CAPEX and OPEX, enabling customers to build reliable, cost-effective networks. Through innovative technology, we optimize performance while minimizing expenses. Learn more at www.coreedge.co.kr.

CoreEdge Networks solutions

Core Edge Networks offers a comprehensive, one-stop network solution that integrates commercial switches, industrial switches, wireless LAN, network management, and advanced security systems. We provide a full line-up of switches to meet diverse business needs, ensuring seamless compatibility and centralized control. Our end-to-end approach simplifies network operations while enhancing security and efficiency across wired and wireless environments.

Overseas business

We are expanding beyond Korea by supplying network solutions worldwide with full pre-and post-sales support. A dedicated global support homepage and local stock ensure fast service, while our English-speaking engineers provide smooth communication. We are committed to growing our overseas business and strengthening global partnerships.

CoreEdge Networks goals

At CoreEdge Networks, we value mutual success with our customers and partners. To support this, we provide all switch functions as standard—no additional licenses required. Our technical services go beyond expectations, backed by a well-organized support system. By delivering complete, integrated solutions, we maximize the advantages of unified network functions. We are dedicated to responding quickly and effectively to the needs of our customers and partners.

Management features

We enable efficient network management by integrating commercial switches, industrial switches, WLAN, and third-party devices. This unified management simplifies operations and improves overall network visibility and control.

CSC provides built-in security features such as user authentication and traffic control. CSC also integrates UTM and APT solutions to deliver enhanced, high-level network protection.

Security features

CEN Smart Controller

Commercial switch

Industrial switch

Wireless LAN

We provide reliable managed switches tailored for businesses of all sizes. As an end-to-end total solution provider, we ensure stable and seamless networking across your entire infrastructure.

We offer industrial and commercial managed switches built for reliable performance. Our industrial switches withstand high temperatures and humid environments.

We integrate wired and wireless networks for unified, efficient management. This approach enhances network security and simplifies policy control for users.
